# WHERE'S MY TRAIN?

In a previous edition of the newsletter we explained some options to ensure you get the best value when buying rail tickets.

However, once you have purchased your ticket, and are at the station, did you know that there are websites that give you information before it appears on station screens?

[www.realtimetrains.com](http://www.realtimetrains.com) uses data directly from National Rail, and is updated **before** station screens and apps. This way you can get information on the platform of departure before other passengers - giving you time to choose your favourite seat!

It also updates delay information - including the reason for the delay.

Another website that offers this kind of information is:

# NATIONAL BUS STRATEGY

## Dorset Council wants to hear from you!

In response to the Government's new National Bus Strategy, Dorset Council is developing an ambitious Bus Service Improvement Plan (BSIP) for improving our local bus services and encouraging more people to use them. The plan will be a collaboration with local bus operators, community groups, business groups, and with passengers.

The Council would like to know how they can improve local bus services and what would make you use local buses more. They would like to hear from both people who already use buses, and from those who currently do not and why.

Please complete the survey to help to shape the future vision and priorities for the bus network in Dorset. The deadline for the survey is **27th August 2021**.

Click here for the survey: <https://wh1.snapsurveys.com/s.asp?k=162575849674> or if you are reading a paper copy of WATAG News you can type in this simpler web link: <https://bit.ly/3Chnbx2>. If you cannot complete the online survey, you can order a paper copy (downloadable here: <https://bit.ly/3fGrLeJ> or call 01305 228227.)

The information in this issue is provided in good faith but please do double check information before you travel as schedules are subject to change.
