

Rural Crime Team – Summer Engagement Opportunities

Your local Rural Crime Team will be out across our rural communities this summer, providing opportunities for you to meet with officers, raise concerns, and receive advice on keeping your property, livestock, and equipment secure.

What's happening?

We will continue to hold our regular **monthly Community Contact Points every Wednesday** across the county. In addition, we will be running **pop-up contact points in villages and rural areas**, as well as engaging with seldom-heard community groups.

Why attend?

Speak directly with officers about rural crime issues
Get practical advice on protecting your land, vehicles, and equipment
Learn about current crime trends in the area
Help shape local policing priorities
These sessions are open to all residents, including farmers, landowners, and those living in rural locations.

We look forward to meeting you and working together to keep our communities safe.
